DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

2. Claims 1-37 and 54-70 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Iguchi et al. US 5,811,531.

Regarding claims 1, 18, 23, 54-55, and 70, Iguchi '531 discloses an absorbent comprising polysaccharide particles, crosslinking agent, a water soluble compound (abstract), salts, and organic fibrous material (see column 6, lines 1-8).

Regarding claims 2-11, 13-17, 19-22, 24-30, 32-37, 56-69, Iguchi '531 discloses cellulose (see Best Mode), crosslinkers, acid salts, and neutralized copolymers (column 1, line 25).

Regarding claim 12, Iguchi '531 discloses alcohols and glycols (see column 2, lines 62-67 and column 3, lines 1-14).

Regarding claim 31, Iguchi '531 discloses polyvalent metal salts (Comparative Example 3).

3. In the event any differences can be shown for the product of the product-by-process claims 1-37 and 54-70, as opposed to the product taught by Bruno '239, such differences would have been obvious to one of ordinary skill in the art at the time the invention was made as a routine modification of the product in the absence of a showing of unexpected results; see also In re Thorpe, 227 USPQ 964 (Fed.Cir. 1985).

Response to Arguments

4. Applicant's arguments filed 9/14/07 have been fully considered but they are not persuasive.

It is argued that the results are unexpected because the process of making is different. This is not persuasive because there is no showing that the claimed product itself would be unexpectedly different due to any claimed product feature thereof.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened

Art Unit: 1793

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
